

Finally, A Safe, Affordable School Transportation Alternative.

When budgets and lack of available commercially licensed drivers make funding school transportation a headache, SafetyVan offers a remarkable solution: The SafetyVan MPV. This multi-passenger vehicle meets or exceeds all Federal Motor Vehicle Safety Standards and provides a comfortable and extraordinarily safe transportation solution. Yet, the MPV is priced far less than a conventional or cutaway bus. Already the SafetyVan is growing in popularity among institutions of higher learning - and it doesn't take an economics

teacher to understand why. Carrying ten people in style, comfort and safety with secured seating (including 3-point lap/shoulder belts,) a reinforced fiberglass roof and equipped with GM Stabilitrak, ABS, head curtain side air bags and more among the many factory safety features, the SafetyVan MPV is an attractive, sensible option. The SafetyVan is now available with attractive leasing programs. Call us for a "No-Obligation" quote!

Get with the program:

Go with an MPV from SafetyVan.

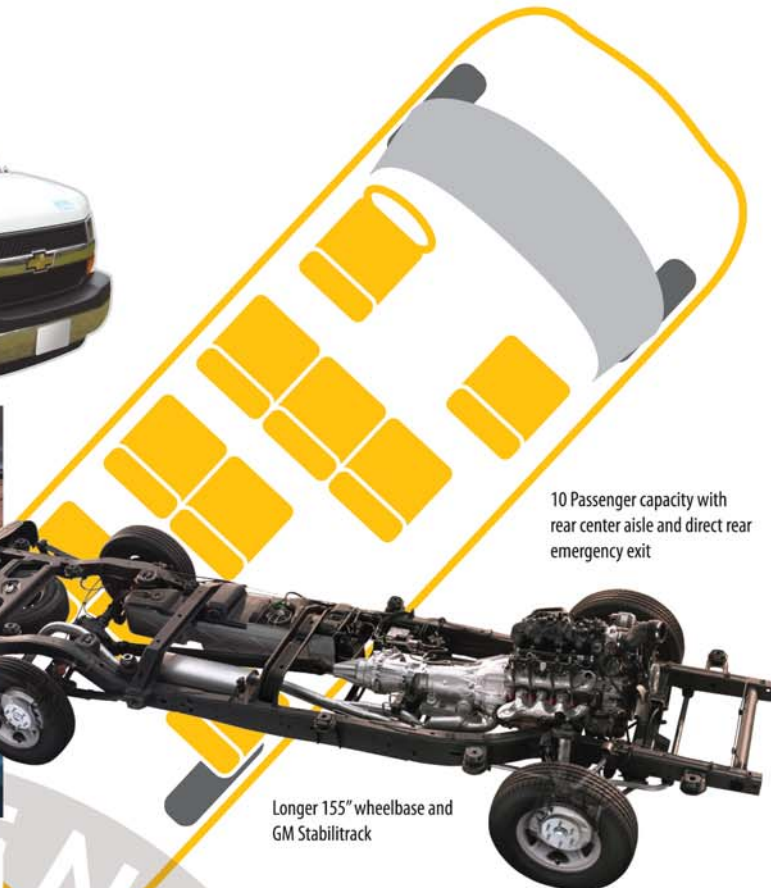

Engineered to Get You There and Back... Safely
