

Because it's so much more than point A to point B.

The SafetyVan is the industry benchmark in multi-passenger safety, convenience and comfort. It is the ideal choice for churches, schools, universities, van pools, shuttle operations. Get the driving ease, maneuverability and passenger capacity of a 14 passenger van. No commercial driver's license required.

SafetyVan offers customizable floor plans, spacious, bus-style safety seating and the exclusive low-profile reinforced fiberglass roof.

SafetyVan's reinforced roof supports 5-ton monster truck!

Engineered to Get You There and Back... Safely

Exclusive Features for All 2010 Models

Tire Pressure Monitoring System

If a tire is over or underinflated, the system will notify the driver.

New Enhanced –Technology Glass

Standard in the rear-most side windows, this three-layer special glass is designed to help reduce the risk of ejection during a crash.

Steel Safety Cage

Reinforcing the floor, body sills, and roof pillars, the safety cage surrounds and protects the entire passenger compartment.

All-New Head- Curtain Side Air Bags

GM segment-exclusive standard head-curtain side air bags help reduce the risk of injury to outboard occupants in certain types of side collisions and rollovers.

Side-View Convex Mirrors

Offer drivers a better rear field of view.

Standard Features for all Safety Vans

Crash Avoidance

StabiliTrak Electronic Stability Control System

Designed to monitor numerous factors, such as steering angle, and automatically intervene when the system senses the vehicle is not adequately responding to driver input.

Day Time Running Lamps

Automatically lit upon ignition for greater visibility of your vehicle by others.

Four Wheel Antilock Brakes (ABS)

ABS helps the driver maintain steering control during hard braking situations.

Crash Protection

Individual Hi Back Bucket Seats for All Passengers with Integrated Lap and Shoulder Belts

Ergonomically designed individual seating for each passenger includes head support and 3-point belt system. The shoulder belts are kept off the floor and wall to stay clean, immediately available for use on each trip. Includes two latch systems in the first row,

inside and middle seats. Facilitates installation of child safety seats.

Dual Front Air Bags

Help reduce injuries to the driver and front passenger in the event of a frontal collision

Fiberglass Reinforced Safety Roof

Designed to absorb impact and provide additional roof-crush protection

Safety and Convenience

Steps (Entry and Exit) for Passengers and Driver

Makes ingress and egress safer and more convenient.

Safety Group

Fire Extinguisher, First Aid Kit, Road Warning Triangles, Back Up Alarm

Safety and Comfort

SafetyVan starts` with the safest US factory produced, extended body passenger van.

Heavily laminated "Fiberglass Reinforced Roof" provides added strength and insulation.

Traveling in the SafetyVan is like traveling in comfortable bus style seating in a quiet, car-like environment.

The SafetyVan has been designed for all sizes of adults and adult sized adolescents.

All SafetyVans are equipped with the unique General Motors "StabiliTrak"® Electronic Stability Control System, the longer 155" wheel base, the Fiberglass Reinforced Roof Section and the ergonomically designed individual seating with integrated 3 point securement system.
