

# BUILT FORD TOUGH. *SafetyVan* BUILT FOR YOU.

See what **SafetyVan** has to offer:

**Para-transit Vans** (with ADA Lifts)

**Shuttle Vans** (Van-pool, Corporate, Churches, Hotels, Airports)

**Work Crew Vans**

## **SafetyVan: Using the Tough Ford Platform Perfect Answer**

Individual seating for all your people mover requirements from 8 to 14 passengers

## **For Para-transit**

Safety, Economy, Convenience, and flexibility for all your ambulatory and w/c passenger needs.

## **ADA and FMVSS Compliant**

## **The NCV Transit Bus**

Dual Rear Wheel Stability with exclusive side curtain air bag safety, all for the operational costs of a conventional van.

## **Why the SafetyVan?**

The **SafetyVan** is tailored to your specific travel needs by skilled designers and craftsmen with over 30 years experience in building a broad range of vehicles in response to an array of transportation requirements.

Everything from vans configured for specialized AWD military personnel and equipment carriers to luxury vans for friends and family to sturdy para-transit vans to high volume, high mileage van-pool applications, **SafetyVan** conversions have performed with the highest degree of reliability and with great customer satisfaction.

We are proud of our track record and hope to make your transportation requirements part of the ever growing **SafetyVan** success story.

*Engineered to Get You There and Back... Safely*

## When the tough get going, Ford and SafetyVan Get together.

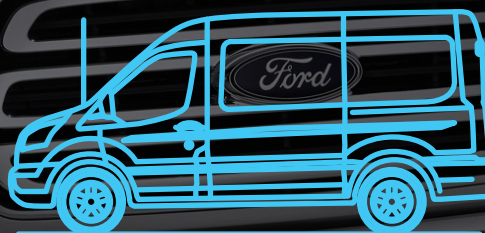

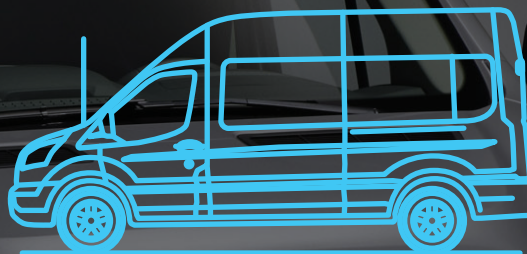

The Ford Transit is new to the USA but it and its predecessors have established a long and distinguished service record across the Atlantic where it has been produced and perfected for over 25 years.

The Transit is not new to heavy work loads performed daily with a minimum of fuel, maintenance and down time.

The **SafetyVan** Transit is a true work horse, will provide years of reliable service, and is expected to have high resale value when the time comes for a new one.

**SafetyVan** offers affordable lease and finance programs for customers large or small.

Call today for a quote on your Transit needs.
